Dear Mr. Leventhal:

Thank you for your wire concerning provisions of the deficit reduction negotiations.

As I've told many groups here in Washington, this is not a perfect package, and it need not be the last word on deficit reduction. But it is very clear that if it doesn't pass the results will likely be severe. It's also far superior to the indiscriminate budget cuts that would occur under an automatic sequester.

A defeat of this package would send a dire signal to the international markets that our government has lost the ability to control the deficit -- a signal that could be followed by higher interest rates and a serious slowing of our economy.

This agreement is a solid step toward meaningful deficit reduction over two years, without increasing tax rates or adding new broad-based taxes. Although the specific revenue sources will be determined through the regular legislative process, the President has indicated that he will not hesitate to veto a bad tax bill as the attached remarks indicate.

Now the challenge is to get the package passed by Congress. Hopefully, they will agree with its merits and act soon to pass this important step toward responsible deficit reduction.

Thank you for writing.

Sincerely,

Howard H. Baker, Jr.

Dear Mr. Davis:

Thank you for your letter on the budget reduction negotiations. As I'm sure you are aware, we have now reached an agreement and the package will be considered very soon by Congress.

As I've told many groups here in Washington, this is not a perfect package, and it need not be the last word on deficit reduction. This agreement is a solid step toward meaningful deficit reduction over two years, without increasing tax rates or adding new broad-based taxes or new excise taxes. A new cigarette tax is also therefore excluded. Although the specific revenue sources will be determined through the regular legislative process, the President has indicated that he will not hesitate to veto a bad tax bill as the attached remarks indicate.

Now the challenge is to get the package passed by Congress. Hopefully, they will agree with its merits and act soon to pass this important step toward responsible deficit reduction.

Dear Mr. Cole:

Please pardon my delay in responding to your letter of July 24, describing the financial consequences which you and others face as a result of the collapse of the Southern Industrial Banking Corporation (SIBC).

I have looked into S. 509 and H.R. 1351, the legislation which has been introduced to address this situation. Based upon its preliminary review of these bills, the Justice Department has identified several potential constitutional problems involving, for example, the constitutional requirement that all bankruptcy legislation be uniform in its application. I am assured, however, that the Justice Department is ready to work with the House and Senate Judiciary Committees at their convenience to address these concerns.

I know that this situation is causing great personal and financial difficulty for you and the many others affected by the SIBC bankruptcy. I regret that I cannot be of greater assistance to you at this time.

Dear John:

This is a belated response to your October 28 letter on the British Petroleum offering. I very much appreciate your keeping me informed of developments in this matter and, in particular, sharing with me a comprehensive statement of the position of your firm, Morgan Stanley & Company, Incorporated, and Shearson Lehman American Express. As I told you, we conferred with the British government on this subject and urged them to consider your arguments.

While the price floor established in connection with the offering obviously was of some benefit, I recognize that you and the other U.S.-based underwriters nonetheless incurred significant losses.

I appreciate all of the support and advice you have given over the last month. Again, thank you for keeping me apprised of developments in this matter.

Dear Mr. Kislak:

Thank you for your letter concerning what you can do to support deficit reduction.

As I'm sure you are aware, we have reached a deficit reduction agreement with Congressional leaders and this package will be considered very soon. This is not a perfect package and it need not be the last word on deficit reduction. But it is clear that if it doesn't pass the results will likely be severe. It's also far superior to the indiscriminate budget cuts that would occur under an automatic sequester.

A defeat of this package would send a dire signal to the international markets that our government has lost the ability to control the deficit -- a signal that could be followed by higher interest rates and a serious slowing of our economy.

This agreement is a solid step toward meaningful deficit reduction over two years, without increasing tax rates or adding new broad-based taxes. Although the specific revenue sources will be determined through the regular legislative process, the President has indicated that he will not hesitate to veto a bad tax bill as the attached remarks indicate.

Now the challenge is to get the package passed by Congress. You and all concerned citizens can help by telling your elected officials that now, not later, is the time to act on deficit reduction.

Thank you for writing.

Dear Mr. Markham:

Thank you for your October 5 letter asking the President to autograph your poem about the Berlin Wall.

Although the number of such requests prevents President Reagan from honoring them, it is a pleasure to learn of the interest your poem has generated. Your words evoke the strong spirit of freedom and the determination to defend human rights which are the essence of the American character. In that sense, your work stands on its own as a deeply felt statement epitomizing American concerns and values. Your poem thus echoes and reinforces the President's publicly stated views on the Wall.

In that regard, I'm enclosing a copy of a recent Presidential speech which reiterates his commitment to see the Berlin Wall torn down. Your voice helps demonstrate how widespread this sentiment is throughout America.

Again, thank you for your humanitarian concern and support on this important issue. It can only be hoped that, by working together, we may one day soon see the wish expressed in your eloquent verses come true.

Dear Roger:

Thanks for sending along the comments from your European Advisory Council. I hope that the agreement we reached last month will be the catalyst you describe. The settlement is multi-year and, I would argue, credible -- the primary one-time savings are asset sales, which make up only 10% of the package. There are real savings in entitlement programs, including agriculture, and real revenues, all of which translate into permanent reductions.

It is not as much as I had hoped or the President had hoped, but it is a good first step. There are only three basic alternatives to reduce the deficit. The first of these is a larger package, but it would have to include a limitation on COLAs. Whether that is a good idea or not, it is clear there simply aren't enough votes to pass a broad COLA change in either the House or the Senate. The second alternative is the plan that emerged from the negotiations, or something very close to it. The third choice is simply letting the sequester take effect and admitting that the only way we can deal with the deficit is by going on "autopilot."

I think that the result, while not perfect, shows that the Executive and Legislative branches can come together and function and should clearly demonstrate that the President is not inflexible on either taxes or defense. After sitting in those negotiations for 20 days, I've got to tell you that if there is any stubbornness, it is in the Congress's unwillingness to cut domestic spending, especially entitlements.

I appreciate your renewed offer to assist; as you know, we fully plan to take you up on it. We will need all the help we can get in passing and implementing this package. Best regards.

Sincerely,

Howard H. Baker, Jr.

Dear Mr. Aytes:

I want to thank you for your recent correspondence regarding your interest in having a Federal prison sited in Morgan County.

It is my understanding that Jim Jones, Site Acquisition Coordinator for the Bureau of Prisons, will visit Morgan County on December 15. As you may know, the Bureau of Prisons has very specific criteria that must be followed in establishing the location of any new facility. To this end, I wish you the best of success in receiving possible consideration for any future prison site.

Again, thank you for writing.

Sincerely,

Howard H. Baker, Jr.

Dear Mr. Gilkerson:

Thank you for letting me know your views about the deficit situation and the various proposals which have been receiving attention. The negotiations are ongoing, and every attempt is being made to arrive at a bipartisan agreement.

Some things are clear. The President remains opposed to any tax rate hike. This would be a step in the wrong direction which could chill the economy. Further, any agreement must include significant spending cuts -- and I am convinced that those are possible. Finally, a mechanism must be found to ensure that the agreement cannot be changed by Congress. We have been there before.

Toward that goal, I very much appreciated your thoughts on how this might best be accomplished, and I have passed them along to others who are involved in the negotiations. I remain hopeful that an agreement can be reached which will meet our goals and take a positive step toward solving the deficit.

With best wishes,

Sincerely,

WASHINGTON

Dear Mr. Kislak:

Thank you for your letter concerning what you can do to support deficit reduction.

As I'm sure you are aware, we have reached a deficit reduction agreement with Congressional leaders and this package will be considered very soon. This is not a perfect package and it need not be the last word on deficit reduction. But it is clear that if it doesn't pass the results will likely be severe. It's also far superior to the indiscriminate budget cuts that would occur under an automatic sequester.

A defeat of this package would send a dire signal to the international markets that our government has lost the ability to control the deficit -- a signal that could be followed by higher interest rates and a serious slowing of our economy.

This agreement is a solid step toward meaningful deficit reduction over two years, without increasing tax rates or adding new broad-based taxes. Although the specific revenue sources will be determined through the regular legislative process, the President has indicated that he will not hesitate to veto a bad tax bill as the attached remarks indicate.

Now the challenge is to get the package passed by Congress. You and all concerned citizens can help by telling your elected officials that now, not later, is the time to act on deficit reduction.

Thank you for writing.

Sincerely,

Howard H. Baker, Jr.
Chief of Staff to the President
